Grand Central Park is within a Municipal Management District (MMD), similar to a Municipal Utility District (MUD).

- Communities within an MMD or a MUD typically have a higher level of amenities
- Efficient lot production keeps supply and demand volatility (prices) in check
- Taxes typically decrease as the community grows

For families searching for new homes in an amenity-rich community, considering a special utility district (such as an MMD or a MUD) is the viable, if not, preferred option.
